17+ Years INDUSTRY EXPERIENCE	IIM Calcutta EXECUTIVE ALUMNUS	Tier-1 Banks J.P. MORGAN & BOFA	Educator & Founder ACADEMIA & CORPORATE
----------------------------------	-----------------------------------	------------------------------------	--

EXECUTIVE PROFILE

Accomplished Technology Leader and Educator with over 17 years of experience steering Quality Engineering, enterprise test automation, and resilient software architecture across premier global financial institutions. A proven track record delivering mission-critical banking platforms at J.P. Morgan, Bank of America, Travelex, and Inadev. Blends deep commercial engineering insight with university-level pedagogy, equipping future engineers with hands-on systems knowledge, algorithmic foundations, and modern AI engineering practices.

INDUSTRY & LEADERSHIP EXPERIENCE

- Senior QA Manager • Inadev India Pvt. Ltd.

Nov 2023 – Aug 2025

Direct enterprise QA vision and transformation for high-availability banking platforms. Spearhead end-to-end automation strategies, modernizing test suites and mentoring lead automation engineers across distributed teams.
- QA Test Lead • Zentree Labs

Jul 2021 – Nov 2023

Architected scalable hybrid automation frameworks that boosted overall regression execution speed by over 40%. Led multi-functional delivery teams ensuring zero-defect deployments for client systems.
- Quality Specialist • Bank of America (B.A. Continuum)

Mar 2014 – Jul 2021

Designed resilient enterprise automation architectures for consumer banking and settlement services. Mentored 40+ QA specialists across projects, championing continuous integration and standardizing automation frameworks.
- Senior Test Analyst • Travelex India

Apr 2013 – Mar 2014

Engineered test automation suites for cross-border financial transactions and foreign exchange platforms while authoring standardized test automation curricula for internal engineering teams.
- Team Leader – QA • J.P. Morgan

Sep 2010 – Mar 2013

Led testing delivery for high-value financial transaction and SWIFT payment processing platforms, ensuring total alignment with strict financial regulatory benchmarks and zero-tolerance SLA requirements.
- Testing Executive • Infosys Technologies

Sep 2008 – Sep 2010

Executed core banking domain test pipelines, scripted automated functional suites, and validated backend transactional database workflows.

ACADEMIC & UNIVERSITY TEACHING

Visiting Faculty — St. Xavier's College (Autonomous), Mumbai

HIGHER ACADEMIA

Delivering applied computer science curriculum across postgraduate and undergraduate degree programs:

- M.Sc. Information Technology:** Instructing *Data Structures and Algorithms (DSA) using Java* — covering computational complexity (Asymptotic Analysis), Divide & Conquer, Tree & Graph traversals, dynamic arrays, and expressive expression evaluation.
- F.Y. B.Sc. Information Technology:** Teaching foundational principles via *Art of Programming*, establishing disciplined problem-solving methodologies, structured algorithmic thinking, and core syntax fluency.
- Modern AI Pedagogy:** Conducting specialized modules in *Vibe Coding using AI* — equipping students with modern prompt-driven architecture, LLM-assisted paired programming, rapid prototyping, and AI-augmented software engineering practices.

Story-Based Learning

Translating abstract algorithms into tangible, real-world engineering analogies.

Algorithmic Rigor

Deep emphasis on core programming logic, memory models, and optimal time-space tradeoffs.

Industry Alignment

Bridging theoretical computer science with enterprise production architectures.

CORPORATE TRAINING & TECHNOLOGY MENTORSHIP

Designed and delivered intensive technical development programs for both incoming engineering cohorts and veteran specialists across Tier-1 financial institutions including **J.P. Morgan**, **Bank of America**, and **Travelers**.

Key Modules Delivered

- Full-Stack Test Automation Architecture
- API Automation, Mocking & Postman CI Collections
- High-Concurrency Load Testing via Apache JMeter

Organizational Impact

- Upskilled manual QA teams into high-velocity Automation SDETs
- Embedded clean code principles into enterprise testing routines
- Accelerated onboarding cycles for complex banking workflows

TECHNICAL EXPERTISE

PROGRAMMING LANGUAGES

JavaPythonTypeScriptJavaScriptCVBScript

TESTING TOOLS & AUTOMATION FRAMEWORKS

SeleniumPlaywrightCypressUFT / QTPTestComplete

testRigor

API, PERFORMANCE & DEVOPS

PostmanApache JMeterJenkins CI/CDGitHubBitBucket

VENTURES & INITIATIVE

NextGen Testing Academy

FOUNDER

An outcome-driven training initiative bridging academic degrees and real-world commercial software testing practices through live, project-based engineering drills.

Core Tracks:
Selenium & Cypress Automation • Performance Engineering • REST API Testing • Programming for SDETs

EDUCATION & PROFESSIONAL CREDENTIALS

Post Graduate Diploma in Finance

Indian Institute of Management Calcutta (IIM Calcutta)

Executive Management & Financial Engineering

Bachelor of Science in Information Technology

University of Mumbai

Foundations of Computer Science & Software Engineering
